Voyager Hockey Clinics

Voyager Hockey was established in 2011 to provide a quality and inexpensive way to improve young hockey players between the ages of 7-19 (Squirts-Post Grad). Voyager Hockey focuses on the basics of the game of hockey, skating, puck handling, shooting, timing, and combat drills to ensure a player is properly prepared to advance to the next level. Voyager Hockey uses a variety of high-intensity drills that keeps an up-tempo pace to maximize a player's repetitions throughout each skill session.

Our Commitment

Voyager Hockey is committed to progression of the game's basic skills, and the progression that leads young hockey players to their highest level of attainable skill development. Intensity, Hard-work, dedication, perseverance are Voyager's foundations for player skill development during skill sessions. It is through our implementation of a rigorous training on-ice training program, that we focus on developing a well-rounded young athlete that is prepared to take on the game to achieve their personal goals. Fun is a main commitment where players enjoy their developmental experience.

Alumni

Our Alums have donned several high-profile program uniforms, and have attained several honors including League All-Stars, Newspaper All-Scholastics, Player of the Years, and Captainship. Players have played at High School, Prep School, Junior A & B U.S. and Canada, Varsity College, and College Club. Below are abbreviated lists.
